The plan is from 1989 and not for real use!

- (1) Tachometer in km/h and the clock
- (2) Odometer in km
- (3) Parking brake, works on the rear axle, can also be set with [.]
- (4) Key switch
- (5) Main battery switch
- (6) Starter – [M])
- (7) Engine cut-off – [M], must be pressed until the engine is completely off.
- (8) Warning lights
- (9) Gear selection
- (10) Bus stop brake
- (11) Button for the front doors
- (12) Stop request light
- (13) Baby carriage switch
- (14) 8:00PM switch (D92 only)
- (15) Microphone foot pedal, can also be activated via the clutch pedal or [Q]
- (16) Schedule
- (17) IBIS, see below
- (18) Pressure gauge warning: When the needle points up, there's not enough pressure in the system. The bus is not ready for action!
- (19) Double manometer
- (20) Coolant temperature
- (21) Fuel gauge (except on the SD77 – you'll need to check in in the status display!)
- (22) Oil pressure gauge
- (23) Warning light „Not ready to drive!“
- (24) Rear door indicator
- (25) Parking brake indicator light
- (26) Water level indicator light (not functional)
- (27) Oil temperature indicator light (not functional)
- (28) Battery light
- (29) High beams indicator light
- (30) Turn signal indicator light
- (31) Baby carriage indicator light
- (32) Centralized lubrication system indicator light
- (33) ABS indicator light (D92 only)
- (34) ASR indicator light (D92 only)
- (35) Emergency valve indicator light (starting with the D88, not functional)
- (36) E-Gas indicator light (not functional for D88 and higher)
- (37) Auxiliary heating system
- (38) Direct retarder (left) and On/Off (right, not available on D92)
- (39) Light switches, You can also use the [6], [7], [8] and [9] keys.
- (40) High-beams foot pedal (only on the SD200): it's usually easier to just press [F]
- (41) Turn signal (starting with the D89, it also controls the windshield wipers)
- (42) Windshield wipers, starting with the D89, it's combined with the turn signal . You can control the “on/off” switch with [W], the “interval” switch with [Shift]+[W] and the washer with [Ctrl]+[W].
- (43) Fan
- (44) Front heater
- (45) Interior heater
- (46) Rearview mirror heater (no function)
- (47) Engine cooling
- (48) Fog lights (D92 only)
- (49) ASR switch: You can turn the ASR system on and off (D92 only)
