D-33142 Bueren

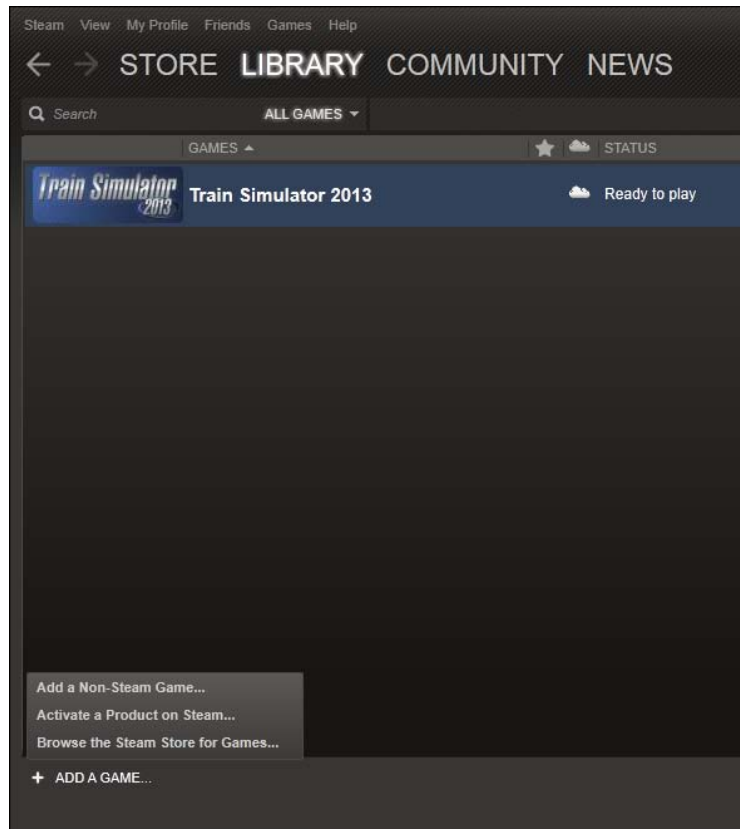

## Step 1:

Start Steam using your access data and click on the tab "LIBRARY".

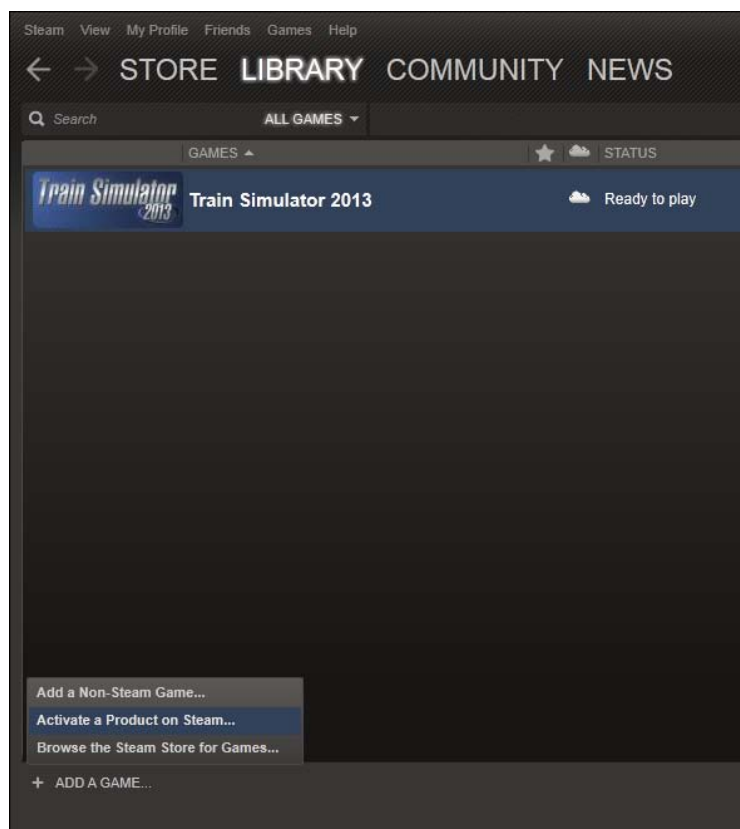

## Step 2:

Click on the button “ADD A GAME” on the bottom left.

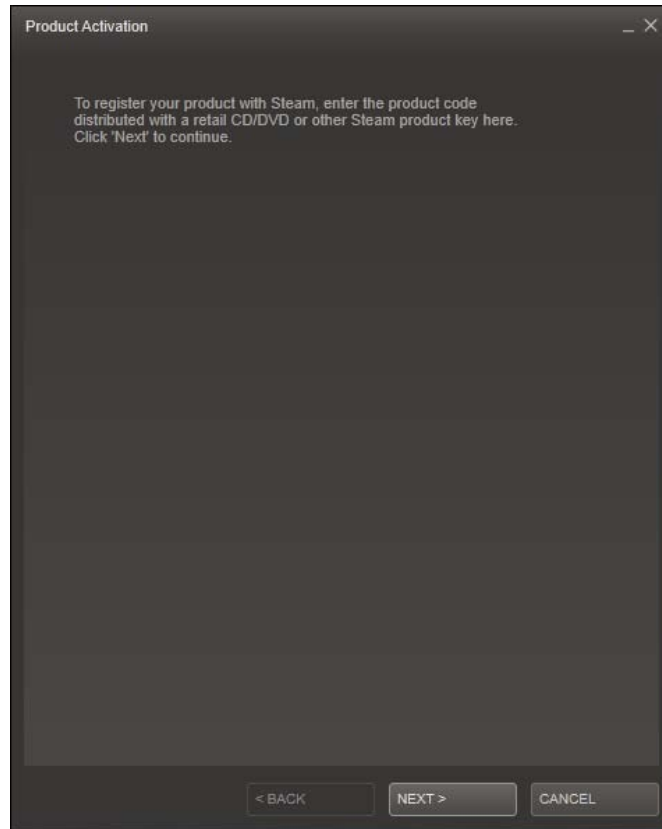

## Step 3:

Then, click on “Activate a Product on Steam...”.

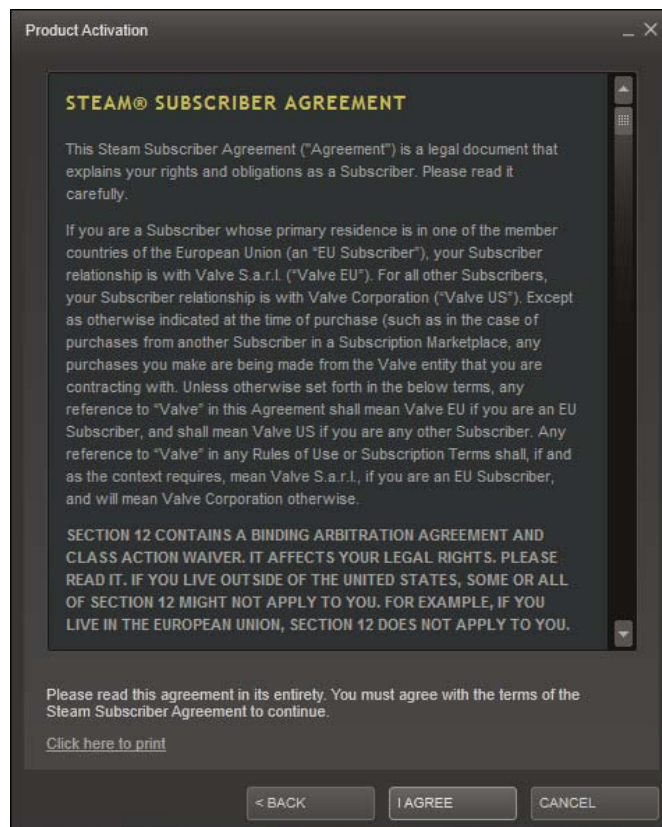

## Step 4:

The window for the product activation pops up. Click on “Next” to continue.

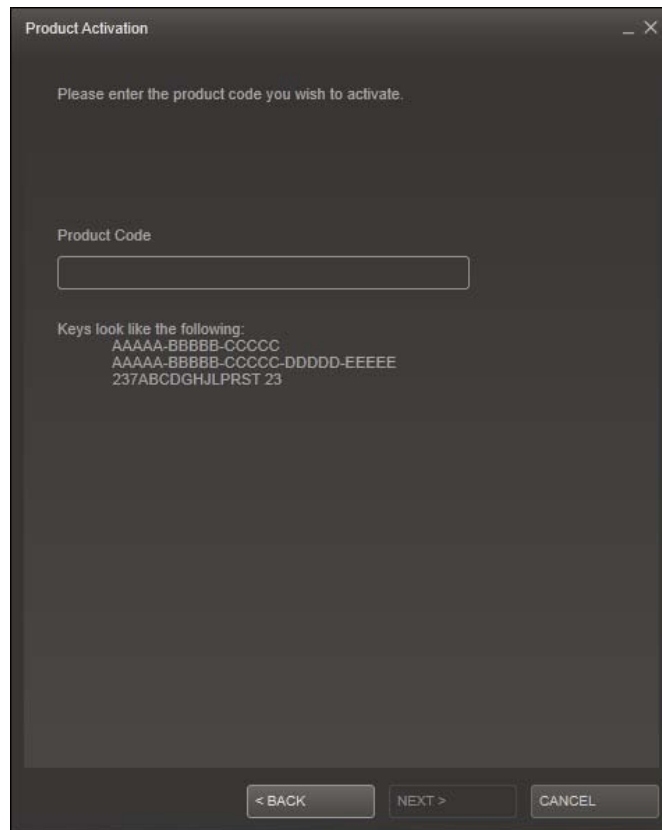

## Step 5:

Please read the **STEAM® SUBSCRIBER AGREEMENT** and click on “I AGREE” if you agree with the terms.

## Step 6:

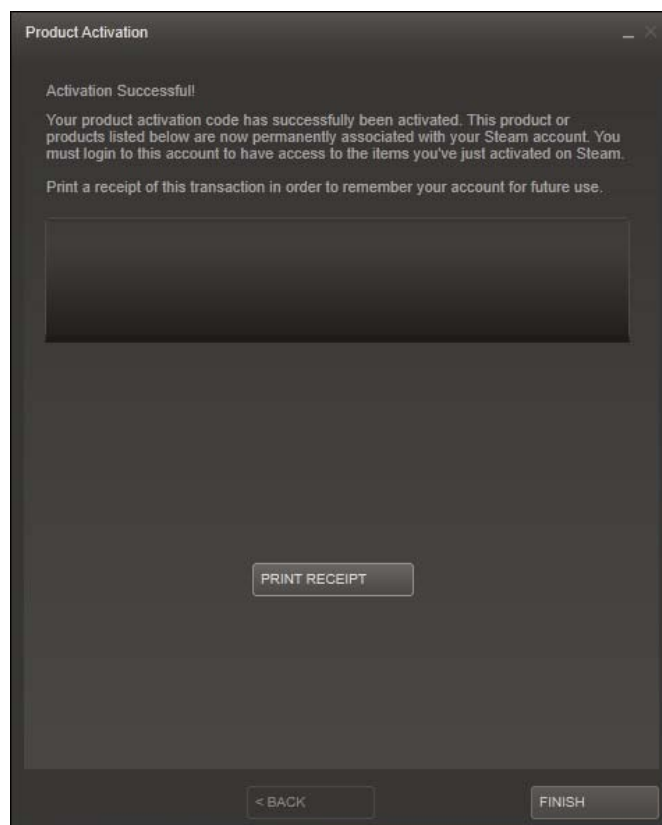

You can now enter your product code. Afterwards, click on "NEXT".

The screenshot shows a dark-themed dialog box titled "Product Activation" with a close button (X) in the top right corner. The main text reads "Please enter the product code you wish to activate." Below this is a label "Product Code" followed by an empty text input field. Underneath the input field, there is a section titled "Keys look like the following:" with three example keys: "AAAAA-BBBBB-CCCCC", "AAAAA-BBBBB-CCCCC-DDDDD-EEEEEE", and "237ABCDGHIJLPRST 23". At the bottom of the dialog, there are three buttons: "< BACK", "NEXT >", and "CANCEL".

## Step 7:

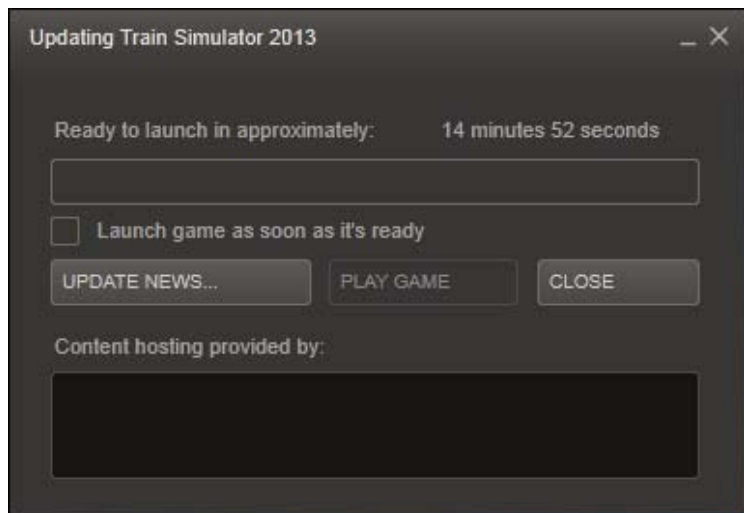

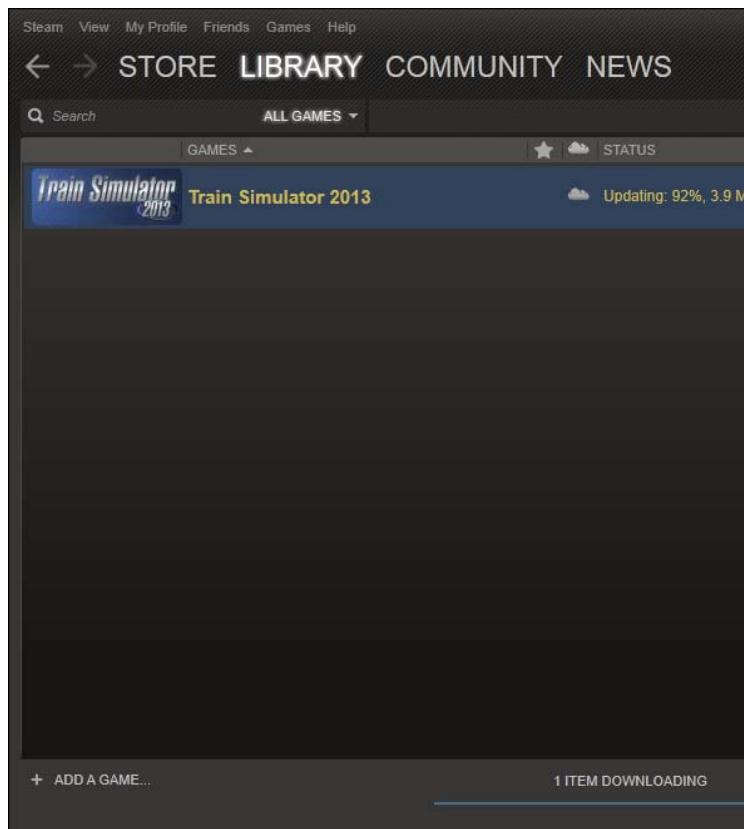

Please print your receipt and click on "FINISH".

The screenshot shows the same "Product Activation" dialog box, but now it displays a success message. The text reads "Activation Successful!" followed by a paragraph: "Your product activation code has successfully been activated. This product or products listed below are now permanently associated with your Steam account. You must login to this account to have access to the items you've just activated on Steam." Below this is another paragraph: "Print a receipt of this transaction in order to remember your account for future use." There is a large, empty rectangular area intended for a receipt. At the bottom of the dialog, there are two buttons: "< BACK" and "FINISH".

## Step 8:

Your Train Simulator 2013 is now downloading new data. Once the update is successful, you may start the game.

We wish you lots of fun with your new Add-on.  
Your Aerosoft-Team
